Subject: 1985 Prudhoe Bay Unit Air Compliance
Testing Schedule Change

Dear Sirs:

The 1985 Air Compliance Test Plan for the Prudhoe Bay Unit Oil Field Facilities was submitted for your approval on July 24, 1985. Due to extended shutdowns schedules for the facilities the tests will now take place during the week of September 2nd. Erica Dippe contacted Ray Nye (EPA) and Jack Coutts (ADEC) of your offices to notify you of this testing delay the first week of August. We plan to test at **Gathering Center Two**, then the Western Seawater Injection Plan and then the Eastern Seawater Injection Plan.

If we can provide you with any further information on the schedules or testing please contact the undersigned at (907)564-5026.

Sincerely,

Lynn Billington
